# SIXT Hackathon 2026

**Friday, 13 November 2026**
**HQ Pullach, Academy**

## Agenda

| Time | Item |
|---|---|
| 08:15 – 09:00 | Registration |
| 09:00 – 09:30 | Kick-off: welcome, topic owners, general instructions |
| **09:30** | **Final deadline for the Team + Topic Registration form (late teams: topics with room, first come, first served)** |
| 09:30 – 12:45 | Hacking, block 1 (starts once your topic is confirmed) |
| 12:45 – 13:30 | Lunch (LeOrange buffet) |
| **13:30 – 16:45** | **Hacking, block 2. Hacking ends at 16:45: repo ready (code, `SUBMISSION.md`, 1-min demo video or slides). Prepare a 3-min pitch (manifest you are a finalist already :) )** |
| 16:45 – 17:30 | Reviews and finalist selection: no pitch, no hacking. Topic owners may ask a question; network meanwhile. 5 finalists announced at the end |
| 17:30 – 18:00 | Final pitches: 5 finalists, 3 min + 2 min Q&A each |
| 18:00 – 18:15 | Prize ceremony |
| 18:15 onwards | Network and chill :) |

## Who to reach out to

| If you have a question about… | Reach out to |
|---|---|
| Project 1: Structured Extraction from Documents | Sruthi Radhakrishnan, Ihsan Soydemir |
| Project 2: Mileage Forecasting & Erroneous Mileage Detection | Julian Hackinger, Ernest Quintana |
| Project 3: Meta-Evaluation of LLM-as-Judge | Jigyasa Singhal |
| Project 4: Fleet Allocation Challenge | Sara Michetti, Julian Mehne |
| Project 5: Enterprise Data Agent Challenge (TUM x SIXT collaboration) | Ioannis Tzachristas (TUM) |
| Project 6: Turnaround Task Duration Estimation | Iulia Pasov |
| Repo, GitHub invite, git problems | Sruthi Radhakrishnan |
| Venue, Wi-Fi, food, general organisation | Jessica vom Brocke |
| Thesis, working student, internships | Your topic owner, Jessica vom Brocke, HR colleagues on site |
| Anything else | Any organizer on site |

## Good to know

- Teams have 1 to 3 people. Bring your own LLM coding agent, whichever you like.
- Public or mock data only. No secrets in git (use `.env`). Do not share the repo outside the hackathon.
- Fork or clone the repo, work only in your project folder, no branches in this repo. Steps are in the repo README.
- Judging criteria and deliverables: see the back of this sheet.

## Fill in the Team + Topic Registration form by Thursday 17:00

Team name, top 3 topics, GitHub repo link: https://forms.cloud.microsoft/e/S2dvqjeFBX. Topics are in the repo from Thursday 09:00, matching results by Thursday 18:00. The form stays open until Friday 9:30; late teams are matched first come, first served.

# Judging criteria & deliverables

SIXT Hackathon 2026

## What to hand in (by 16:45, in the GitHub repo)

- **Code** in your project folder (in your clone or fork), and **the GitHub repo link you entered in the Team + Topic Registration form** (must be public so organizers and your topic owner can read it). The repo link is your submission.
- `SUBMISSION.md` in your project folder: approach, results, how to run.
- **Either a 1-minute demo video** (`submission/demo.mp4`, under 50 MB) **or a small set of slides** (`submission/slides.pdf`, max 5 slides), included in the same repo. Your choice. It counts as a deliverable alongside the code.
- **Evaluation results**, with a baseline for comparison if one exists.
- Whatever extra your project README asks for. No real data, no secrets.

## How you are judged (100 points)

| Criterion | Points | What we look for |
|---|---|---|
| Problem understanding | 15 | You grasp the business problem and its constraints |
| Quality of approach | 25 | Sound, justified method; compared against a baseline if one exists |
| Results | 25 | Measured evidence for your approach, honestly evaluated |
| Business relevance & reusability | 15 | Could SIXT use it? Clear next steps |
| Code & reproducibility | 10 | Runs from `SUBMISSION.md`, readable, clean |
| Presentation & demo | 10 | Clear story, working demo, good answers |

Up to **+5 bonus** for an exceptional insight or particularly clean engineering.

## How the evening works

1. **16:45 – 17:30 Reviews and finalist selection:** your topic owner looks at your submission (code, video or slides) and may ask a clarifying question. If your owner is not on site, they review it remotely from your GitHub link. There is no formal team pitch during the reviews, so please make your submission clear. Meanwhile, enjoy, network and learn more about each other's projects. The topic owners then select 5 finalist teams across all topics. If a topic has no submission that meets the owner's expectations, the next best submission from another topic takes the place.
2. **17:30 – 18:00 Final pitches** (the finalists are announced just before) by the 5 finalist teams, **3 min pitch + 2 min Q&A each**, scored by the jury on the same criteria.

## Reminder

**Fill in the Team + Topic Registration form by Thursday 17:00 (final deadline Friday 9:30):**
https://forms.cloud.microsoft/e/S2dvqjeFBX
